1. Executive Summary

Overall COGNIA Score: 50%

Wake-up Success: 0%

Challenge Accuracy: 100%

Total Alarms: 5

Active Alarms: 5

Total Challenges: 4

Correct Challenges: 4

Incorrect Challenges: 0

Habit Score: 25.00%

Snooze Count: 0

2. Behavioral Habit Intelligence

Overall Habit Score: 25.00%

Wake-up Consistency: 0%

Challenge Completion: 100%

Snooze Reduction: 0%

Sleep Schedule Adherence: 0%

3. Sleep Analytics

Sleep Records: 0

Average Sleep: 0 hours

Target Sleep: 8 hours

Sleep Adherence: 0%

Sleep Quality: N/A

Sleep History

History: No sleep records available

4. Wake-up Analytics

Total Wake-ups: 0

Wake-up Success Rate: 0%

Snooze Count: 0

Wake-up Consistency: 0%

Wake-up History

History: No wake-up records available

5. Cognitive Challenge Analytics

Total Challenges: 4

Correct Answers: 4

Incorrect Answers: 0

Accuracy: 100%

Challenge History

Challenge 1: Math

Question: What is 4 × 3?

Difficulty: Beginner

Result: Correct

Completion Time: 0 seconds

Completed At: 2026-10-05T13:27:40.745000

Challenge 2: Math

Question: What is 4 × 3?

Difficulty: Beginner

Result: Correct

Completion Time: 0 seconds

Completed At: 2026-10-05T13:27:40.795000

Challenge 3: Math

Question: What is 15 + 27?

Difficulty: Easy

Result: Correct

Completion Time: 0 seconds

Completed At: 2026-10-05T14:45:19.210000

Challenge 4: Math

Question: What is 15 + 27?

Difficulty: Easy

Result: Correct

Completion Time: 0 seconds

Completed At: 2026-10-05T14:45:19.226000

6. Adaptive Intelligence

Recommended Difficulty: Easy

ML Model: Decision Tree Classifier

Confidence: 100%

Model Accuracy: 100%

Attempts Analyzed: 4

Completion Rate: 100%

Snooze Count: 0

7. COGNIA AI Recommendations

Recommendation 1: ML model recommends Easy difficulty challenges.

Recommendation 2: Your challenge performance is strong. You can try more challenging cognitive tasks.

Recommendation 3: Complete more wake-up sessions to generate personalized recommendations.

Recommendation 4: Record your sleep and wake-up times to generate sleep-based recommendations.

Recommendation 5: Set your preferred sleep and wake-up schedule.

8. Milestone 4 - Analytics & Intelligence

Executive Analytics: Operational

Behavioral Analytics: Operational

Adaptive Intelligence: Operational

Wake-up Analytics: Operational

Sleep Analytics: Operational

Visualization: Operational

Reporting: Operational

Docker Containerization: Operational

Cloud Deployment: Optional
